Syda Productions/Shutterstock So, you've ditched the cable company, but now you're stuck with a streaming service and their rising prices. Fortunately, you can watch TV online for free. It just takes a little effort and a little patience. Streaming Services Are Getting Pricey If you hate paying for TV, then you've probably calculated the yearly price of services like Netflix or Hulu. As it turns out, a subscription to Netflix and Hulu will cost you more than \$200 a year, and additional services will only bring that number higher. When you consider the current cost of streaming services, the yearly price hike of Netflix and Amazon Prime, and the addition of new services like Disney+, the future looks bleak—or at least expensive. We tend to think of these services as an escape from cable, yet they're starting to look a lot like cable companies. Is there an escape from streaming services? Luckily, you don't have to pay for Netflix or Hulu to get your online TV fix. There are plenty of ways to watch TV online for free, and some of them will make you wonder why anybody pays \$12.99 a month for a streaming service subscription. Borrow Somebody's Login When it comes to account sharing, streaming services are pretty lax. In fact, most streaming services encourage account sharing, at least within a family, with separate user profiles and multi-user pricing plans. You ask a friend for their login info, add a profile to their account, and go to town. You can also borrow a friend or family member's cable login information to stream content directly from the websites of TV networks, like FOX or HBO. Some cable services, like DirecTV, even have their own streaming portals. It's crazy how a single username and password can bring you so much free content. Piggybacking on a friend or family member's streaming or cable subscription can save you a lot of money, but in the end, somebody's still paying that bill. If you're trying to ditch streaming services and the ghost of cable entirely, then you'll have to find a different path to the world of free TV. This may be against the terms of service for some streaming services, but others encourage you to share with family members. The Best Free Streaming Sites: Pluto TV and Crackle If you won't (or can't) borrow someone's login information, then you'll have to find free TV in the wild. Luckily, there are plenty of streaming websites that offer free content, and most of them have a handful of grade-A shows and movies. The most popular free streaming sites are Pluto TV, which offers over one hundred live channels showing movies and TV shows, and Sony's Crackle, which provides a variety of TV shows and movies for on-demand streaming. Pluto and Crackle have commercials, of course—but so does cable TV and you pay for that! You can watch these in your web browser, in a smartphone or tablet app, or even on your TV with a Roku or similar device. If these sites aren't doing it for you, then you should check out Tubi, Popcornflix, Share TV, and Yidio. You can also use services like YouTube to fuel your entertainment obsession, but you'll have a lot of trouble finding full episodes of TV shows. You can find a ton of other free streaming platforms on Google, but you should avoid streaming from any website that looks dubious. These websites are usually operated illegally, and they aren't always safe to use. Watch on a TV Network's Website If you're trying to watch a show from a specific network, then check their website. It sounds silly, but most sites will allow you to stream some (or all) episodes of a series for free. Lifetime, for example, allowed people to stream the R Kelly docuseries for free for a short time, and networks like Adult Swim routinely stream live TV for free. Need a list of networks that offer free content? Check out FOX, BET, CBS, AMC, ABC, The CW, Cartoon Network, and NBC. You can also stream free shows from public broadcasting networks, like PBS or the BBC (but you'll need a VPN to watch shows from the BBC because the service is exclusive to Europe). Dust Off Your Library Card As odd as it sounds, you can stream shows and movies from your local library. All you need is a library card and a website like OverDrive or Hoopla. Your public library is guaranteed to have a wide variety of shows and movies, enough that you may forget about streaming services entirely. And you can forget about that Disney+ subscription for a while because most libraries carry a decent selection of Disney films (well, the classic Disney films). If you're trying to save money, these websites are a lifesaver. You can use them to borrow digital copies of books, comics, music, and audiobooks from your public library. And don't worry, you may not even have to drive to a physical library to apply for a library card. Just Google the name of your local library card along with the word "apply." Your local library offers other free digital content, too, from eBooks and audiobooks to online newspapers. And, if you're willing to head to the library in person, you might find a nice selection of Blu-Rays, DVDs, and CDs you can borrow for free. RELATED: Not Just Books: All the Free Digital Stuff Your Local Library Might Offer Take Advantage of Free Trials Free streaming sites don't always have the shows that you want. Luckily, services like Netflix and Hulu usually offer a month-long free trial. These trials are useful when you know exactly what you want to watch, but you should think of them as a last resort. Free trials can only be used once (kind of), and you can end up with a bill at the end of the month if you forget to cancel your account. That being said, you can sometimes rig the free trial system to work forever. Most streaming services identify you by your email address and card information. By signing up for a free trial using different cards and email addresses, you can perpetually hang onto a free trial. Sadly, this method isn't just a test of your moral fortitude; it's also a little half-baked. Streaming services can verify your identity by checking your IP address or your credit card's mailing address, and they'll (justifiably) deny you a free trial if they smell anything fishy. Best Streaming Device Overall Best Budget Streaming Device Best Roku Streaming Device Dutton fans may have to wait until the fall before they can enjoy another season of ranching drama, but in the meantime, it's about to get easier to get your Yellowstone fix. The fourth season of the hit Paramount Network show is finally about to become available for streaming. Whether you're looking for a refresher on all of the dangerous goings-on or just want to find out what all the hubbub is about, here's everything you need to know to get caught up on the ranching drama Yellowstone.StreamingWhile Yellowstone isn't currently on Netflix or Hulu, all four season are now available to stream on Peacock. The seasons are also available for purchase season 1-4 through Amazon Prime (unfortunately, the show is not currently free to Prime members.) Despite what you might assume, given that the show airs on the Paramount Network, it is not currently available through the Paramount+ streaming service, though the hit prequel show 1883 can be found there, as well as the recently announced Dutton origin story 1932. Sign up for PeacockKevin Costner and Kelly Reilly play the father-daughter pair John and Beth Dutton on Yellowstone.Danno NeliWhat's Yellowstone about? The show follows the trials and tribulations of the Duttons, a family of ranchers operating the the largest contiguous ranch in the U.S. But you don't reach the Duttons's level of wealth and success by playing nice; not out where the west is still wild. The family is constantly attending to conflicts from the outside—including land developers, political opponents, and clashes with the local reservation—as well as from within, as the complicated dynamics between the family patriarch John (played by Kevin Costner) and his children—frustrated, ambitious Jamie (Wes Benton), deliciously vicious Beth (Kelly Reilly), and rugged former soldier Kayce (Luke Grimes)—play out with plenty of scheming, secrets, and no little bit of bloodshed. When will season 5 debut? Though the massive success of Yellowstone and the ever expanding Yellowstone universe—it now has it's prequel 1883, another prequel, set during the Great Depression, titled 1932, an in-the-works spinoff set on the 6666 ranch in Texas, which will stream through Paramount+—would make it shocking for the show not to get picked up for additional seasons, it took months for the network to announce whether the show would be returning. Fortunately for fans, though, in February 2022, they did indeed reveal that a new season is in the works, and is likely to begin production this spring. (Image credit: Searchlight Pictures / 20th Century Studios) And the Best Picture Oscar goes to ... Nomadland! If you want to watch Nomadland on Hulu to see Best Actress winner Frances McDormand do what she does best — wow us all with an incredible performance. Nomadland was the biggest of the Oscar winners in 2021, taking home Best Picture, Best Actress and Best Director for Chloe Zhao (who became only the second woman and first woman of color to get that prize).The film is perfect — in all the right and wrong ways — for the time, placing McDormand in the role of Fern, a former substitute teacher who left the town of Empire, Nevada once its economy crashed after a mine closed. Now she's living out of an RV, and working a series of seasonal gigs such as Amazon fulfillment center during the holiday season.The best shows on Hulu to bingeWhere to watch free movies onlineWhile the film seems to have all the heart-breaking emotions we've come to expect from McDormand's strongest roles, it also looks gorgeous. Zhao has made a reputation for showing the stories of the people of the harsher parts of the beautiful west states of the country, and this is an excellent continuation of form.McDormand's co-stars include actual nomads and the always reliable David Strathairn. Here's the Nomadland trailer if you want to get a preview before watching it.Nomadland is streaming now on Hulu (opens in new tab) after dropping on the service Feb. 19, 2021.Hulu is only available in the U.S.Nomadland reviewsThe rave reviews for Nomadland show why the film got so much awards buzz:At the Washington Post (opens in new tab), Ann Hornaday writes "McDormand holds the camera with an utterly disarming combination of self-effacement and command — the same charismatic naturalism that made her appearances on the awards circuit a few years ago for "Three Billboards Outside Ebbing, Missouri" such an exhilarating departure from the usual empty glitz."For the Chicago Sun Times (opens in new tab), Richard Roeper calls the film an "instant American masterpiece that feels like something John Steinbeck might have written had he worked in the early 21st century." He also uses his 4-star review to remind us that Frances McDormand belongs on a hypothetical "a Mount Rushmore of actresses who have created many of the most memorable and formidable characters in film history." He also notes that "David Strathairn deserves best supporting actor consideration for his beautifully understated performance."At Vulture (opens in new tab), Alison Willmore writes that "Nomadland is a devastating film about the delicacies of that distinction, and it could very well be the feature of the year, as uncertain a prize as that is in 2020." She also commends the director, saying that "the Beijing-born Zhao has proven herself to be the best big-screen chronicler of the region, both as an actual place as rugged territory and stunning landscapes."The Atlantic's (opens in new tab) David Sims ranked Nomadland as one of the best films of 2020, and notes that the film is "anchored by a dynamic, prickly, deeply compelling lead performance from Frances McDormand. He also highlights the film's wowing juxtaposition, writing "Zhao places the failed promises of the American dream alongside some of its most beautiful, breathtaking vistas, as Fern pursues a life that isn't driven by a search for success and wealth."Over at Rolling Stone (opens in new tab), K. Austin Collins' review highlights how "For all the majesty and naturalistic realism of its imagery, Nomadland is nevertheless full of sublime, uncanny details that lift it somewhat above the fray. ... These aren't elevating, ironic details; they don't (or shouldn't) make us feel "better" about Fern's situation by reminding us that, to invoke a memorable misfire on this subject, life is beautiful."Up next: the 63 best Netflix shows and TV seriesToday's best Roku Streaming Stick Plus deals (opens in new tab) (opens in new tab)\$69.99 (opens in new tab)/View (opens in new tab) (opens in new tab) (opens in new tab) (opens in new tab)View (opens in new tab) (opens in new tab) (opens in new tab)View (opens in new tab)
